2008 Iowa Pork Regional Conferences

Mark your calendars!
February 18-19, 25-27, 2008

Who should attend?
Owners/Operators
Contract Growers
Production Employees
Veterinarians
Swine Industry Stakeholders

2008 Iowa Pork Regional Conferences

Topics & Speakers

Dates, Location & Speakers:

February 18:

Ainsworth, Marr Park, 4-8 PM

Case Studies of Disease Intervention

Locke Karriker, DVM, Iowa State University

Feeding Pigs in a Biofuels World; Products and Strategies to Consider

Mark Bertram, Ph.D

Mortality Management & Troubleshooting Composting

Terry Steinhart, ISU Extension Swine Field Specialist

February 19:

Oelwein, Oelwein Community Plaza, 4-8 PM

Case Studies of Disease Intervention

Locke Karriker, DVM, Iowa State University

Feeding Pigs in a Biofuels World; Products and Strategies to Consider

Mark Bertram, Ph.D

Mortality Management & Trouble-shooting Composting

Mark Storlie, ISU Extension Swine Field Specialist

February 25:

Sioux Center, Corporate Center, 4-8 PM

Case Studies of Disease Intervention

Locke Karriker, DVM, Iowa State University

Feeding Pigs in a Biofuels World; Products and Strategies to Consider

Mark Bertram, Ph.D

Mortality Management & Trouble-shooting Composting

Dave Stender, ISU Extension Swine Field Specialist

February 26:

Carroll, Carroll County Extension Office, 4-8 PM

Case Studies of Disease Intervention

Locke Karriker, DVM, Iowa State University

Feeding Pigs in a Biofuels World; Products and Strategies to Consider

Mark Bertram, Ph.D

Mortality Management & Trouble-shooting Composting

Jerry Weiss, ISU Extension Swine Field Specialist

February 27:

Dows, Dows Community Center, 4-8 PM

Case Studies of Disease Intervention

Locke Karriker, DVM, Iowa State University

Feeding Pigs in a Biofuels World; Products and Strategies to Consider

Mark Bertram, Ph.D

Mortality Management & Trouble-shooting Composting

Russ Euken, ISU Extension Livestock Field Specialist

Feeding Pigs in a Biofuels World: Products and Strategies to Consider

Mark Bertram, Ph.D, First Choice Livestock

A discussion on the availability, successes and challenges with DDGS, glycerol and other biofuels related products. Hear an overview of implementation, plant differences and pricing options.

Additionally, as fat sources become limited, what products are available at feasible prices? And how do various phytase products impact dietary costs and manure analysis?

Case Studies of Disease Intervention

*Locke Karriker, Swine Section Leader
Food Supply Veterinary Services
College of Veterinary Medicine
Iowa State University*

Disease challenges got your herd down? Through actual case-studies of PCVAD, PRRS and other diseases find out why they occur, how co-infections can complicate management of these diseases and what steps aid in alleviating economic and production affects. Dr. Karriker will present options from successful cases for prevention and treatment including management practices, vaccinations and therapy. This will be a very interactive session.

Mortality Management & Trouble-shooting Composting

ISU Swine Extension Specialists

Mortality Management includes both biosecurity and cost components. Composting is an option for management of routine mortalities. The ISU field specialists will overview the keys to successful compost management through the proper selection of starter materials, calculating volume of materials to mortalities, as well as managing moisture and temperature.
