

# YOUTH LIVESTOCK PROJECTS AND PREM ID

## WHAT IS A PREM ID?

A Premises Identification (Prem ID) is a unique number assigned to the place where livestock live. Prem ID is associated with a 911 address and matching coordinates (latitude and longitude) to the exact location of the livestock.

## WHY DO I NEED ONE?

If there is a disease outbreak it is important to know where the livestock are living in order to protect you and your animals from the disease and prevent it from spreading.

## HOW DO I GET ONE?

Contact your State Animal Health office or scan QR code to complete the Identification Number Application.
