Participants explain how PorkBridge has benefited their farming program.

“It’s a good way to receive information without tying up a whole day attending a seminar away from home.”

“Presentation was at a level appropriate for most of the people listening. Often had good discussion within the group afterwards.”

“It was nice to have a live speaker with the presentation!”

“The information helps me keep up on current topics. I have used some of the information during farm visits and meetings.”

“Good info, easy access, price is right.”

What Is PorkBridge?

PorkBridge combines electronic presentations with live presentations from topic experts by teleconference six times each program year on an every-other-month basis. The program offers access to recorded audio of all sessions to ensure subscribers don’t miss a thing!

What You Need to Participate

• Telephone access
• Email address to receive material
• Computer with CD drive (only if CDs are chosen for presentation delivery)

No Internet access needed for session participation!

PorkBridge is brought to you by swine faculty and staff from these universities.
