Reproduction Seminar

June 11
Waverly Civic Center
200 First Street NE
Waverly, IA 50677

10 a.m. to 3 p.m.
Advanced Swine Reproduction Seminar

June 11 • Waverly Civic Center, 200 1st Street N.E., Waverly, Iowa
Civic Center is located on east side of river – 1 block north of Main Street (Hwy 3 – Bremer Ave.)

Registration 9:30 a.m. • 10 a.m. to 3 p.m.

Morning:

Keynote Speaker: Larry Coleman, DVM, Broken Bow, NE

1. No Pig Left Behind: Increasing piglet survival in the farrowing house.
   Through proper management swine producers should be able to expect less than 2% stillbirths, less than 5% preweaning mortality, weaning 14 pigs per litter and achieving 35 pigs per sow per year

2. Increasing Employee Success: Is there a silver bullet?

Noon — Lunch

Afternoon:

Mark Storlie, ISUEO Swine Field Specialist: Will provide awareness of the sow caliper, a tool to accurately manage sow body condition scores and manage feed costs. The tool was developed by Mark Knauer, North Carolina State University Extension Swine Specialist.

Dr. Jason Ross, Assistant Professor, ISU Department of Animal Science: Jason provides results of summer heat impacts on fertility study, update on technology and ideas to improve reproductive performance.

3 p.m.—Questions and answers
